

A complete formula for a quick return to normalcy

Main active ingredients

Source of energy:
Dextrose
and Sorbitol

Montmorillonite
(40%): Substance
with a high capacity
to adsorb bacteria,
virus and toxins

Glutamine:
recovery of the
altered
enterocyte

Carob flour:
Compacts faeces and
reduces intestinal
transit time

Prebiotics
(*Enterococcus faecium*):
colonises the intestinal
mucous, moving
pathogenic bacteria

Prebiotics
(**FOS-**
fructooligosaccharides):
They create the
appropriate environment
for the proliferation of
beneficial bacteria that
spread and occupy places
of pathogenic bacteria

Activated charcoal:
Powerful toxin and
intestinal gas binder

Electrolytes:
Sodium
chloride,
potassium and
magnesium
